

matTorch::TensorView
::addGradient

matTorch::TensorView
::operator*=

matTorch::TensorView
::operator/=

matTorch::TensorView
::deepCopy

```
graph LR; A[matTorch::TensorView::addGradient] --> D[matTorch::TensorView::deepCopy]; B[matTorch::TensorView::operator*=] --> D; C[matTorch::TensorView::operator/=] --> D;
```

The diagram illustrates a dependency or inheritance relationship. Three source functions on the left are connected by blue arrows to a single target function on the right. The target function, 'matTorch::TensorView::deepCopy', is highlighted with a gray background, while the source functions have white backgrounds. The arrows originate from the bottom-right of the first box, the right side of the second box, and the top-right of the third box, all converging on the left side of the target box.
